One Year  
Warranty

The **VT-HNC100-2-33/N-I-00/000** is a part of the **VT-HNC Digital Axis Controllers Series** by **Bosch Rexroth Indramat**.

## Specifications

|                               |                           |                                     |                                 |                                 |   |
|-------------------------------|---------------------------|-------------------------------------|---------------------------------|---------------------------------|---|
| <b>Analog Input Channels:</b> | 4 impedance channels      | <b>Analog Voltage Outputs:</b>      | 4 outputs, range -10 V to +10 V | <b>Bus Connection:</b>          | PROFINET RT                               |
| <b>Calibration Tolerance:</b> | 40 mV maximum             |                                     | -10 V to +10 V                  |                                 | 1 MB flash EPROM, 8 KB EEPROM, 256 KB RAM |
| <b>Minimum Cycle Time:</b>    | 2 ms                      | <b>Input Voltage Range:</b>         | 0 to 50°C                       | <b>Memory:</b>                  |   |
| <b>Output Load:</b>           | 1 kOhm                    | <b>Operating Temperature Range:</b> | 8 W                             | <b>Operating Voltage Range:</b> | 18 to 36 VDC                              |
| <b>Profibus Rt:</b>           | Optional serial interface | <b>Power Consumption:</b>           | 1.25 mV                         | <b>Processor:</b>               | 16/32-bit MC68376                         |
| <b>Last Verified:</b>         | 06/27/2025 7:12 PM        | <b>Resolution:</b>                  |                                 | <b>Weight:</b>                  | 1 kg                                      |
