Warranty

The **ENDAT-AKM-009M-MCS-DCA-28-NA** is a part of the **Kollmorgen Servo Cables Series** by **Kollmorgen**.

## Specifications

|                                       |                   |                                |                                            |                                 |                                                  |
|---------------------------------------|-------------------|--------------------------------|--------------------------------------------|---------------------------------|--------------------------------------------------|
| <b>AC input frequency:</b>            | 47-63 Hz          | <b>AC input voltage:</b>       | 207-460 VAC                                | <b>Command input:</b>           | Analog velocity/torque, 0-10V, 14-bit resolution |
| <b>DC input inrush current:</b>       | 4 A for 10 ms     | <b>DC input max voltage:</b>   | 30 VDC                                     | <b>DC input voltage range:</b>  | 24 VDC, +15%/-10%                                |
| <b>Energy absorption capacitance:</b> | 110 ?F (internal) | <b>General purpose inputs:</b> | 8, optically isolated, 24 VDC, active high | <b>General purpose outputs:</b> | Max current 50 mA each                           |
| <b>Guaranteed on voltage:</b>         | 15 VDC            | <b>Operating temperature:</b>  | 7°C to 55°C                                | <b>Output frequency range:</b>  | 0-450 Hz                                         |
| <b>Output power (230 VAC):</b>        | 1.3 kW            | <b>Weight:</b>                 | 10 lbs                                     | <b>Last Verified:</b>           | 05/08/2025 5:57 AM                               |
